AWARD WINNING FOODSERVICE FOR SCHOOLS

We stock over 3000 products covering food, drink, packaging and hygiene.

BIG BRANDS

At JJ Food Service we not only stock well known brands, but also our own which offer quality, value for money and traceability.

We're proudly upholding the values W.K. Kellogg instilled

more than 100 years ago – but now we're doing it in 180 countries across the world. We still provide you and your family with better breakfasts that lead to better days, and we flake corn the same way W.K. Kellogg did back in 1898. It just tastes better that way.

We're enhancing quality of life and contributing to a healthier future. We want to help shape a better and healthier world. We also want to inspire people to live healthier lives. This is how we contribute to society while ensuring the long-term success of our company.

Here at Maggi®, our team of culinary experts have worked tirelessly to create recipe mixes that contain only great tasting ingredients you know and love, so you know exactly what goes into the food you're preparing for your loved ones.

How do we make chips? Like our potatoes, we keep it

simple. We simply wash, peel and cut our spuds, then lightly fry in sunflower oil. Then we freeze them. And that's it. Some of our products do have natural coatings or flavourings.

Whether you're a school caterer in search of

lunchtime meal inspiration, or a chef in a busy restaurant or pub, Premier Foods has a whole host of products which will meet your catering needs, helping you to create tasty meals for your customers in the simplest way. We represent some of Britain's best loved brands including Bisto, Ambrosia, Sharwood's, Batchelors, Homepride and McDougalls, allowing you to produce delicious dishes using products your customers will know and love.

We pride ourselves on a genuine understanding of local flavours, providing great tasting favourites and helping you sample authentic cuisine from other cultures.

With a wide range of rice types available, we pride ourselves on delivering top quality products to our consumers

Tips, tricks and sparkly solutions. We have it all. Whatever the product, we've got the answer to make your life easier.

Young's is the UK's leading supplier of frozen and chilled, own-label and branded fish and seafood. Young's are committed to ensuring that great quality fish is accessible to all, now and for generations to come.

Kids need to keep hydrated to ensure that they are performing at their best during the school day. They are always on the

lookout for tasty and refreshing drinks, and our school compliant range of soft drinks gives them the perfect choice!

About JJ Food Service

JJ Food Service has been in the food distribution business for nearly three decades. We are an ISO-9001 & ISO-14001 certified company which provides consistent high business standards in both operating procedures and environmental management systems.

We maximise convenience to our customers by offering an online ordering service alongside the traditional telesales method.

Also we believe our advanced logistics & renewable energy technology have kept us a step ahead of our competitors in this ever changing environment.

JJ Drivers use a hand held invoicing device, this means you only get invoiced for what is ordered & accepted by you at the time of delivery. There are no credit notes and therefore less paperwork for you.

We can also be aware of where your order is at any time via our GPS trackable delivery system. Plus our computerised routing technology reduces delivery miles by up to 20%.

We stock over **1000** products catering for vegetarians and vegans

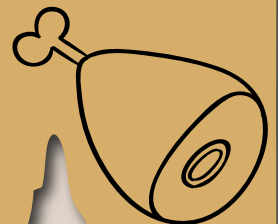

Ask us about our gluten free range

حلال
Halal

At JJ Food Service we cater for a range of dietary requirements including the growing demand for Halal-certified ingredients. According to the Agriculture & Horticulture Development Board the Halal market is growing and represents excellent opportunities for our catering customers, particularly in the sheep sector.

Muslims are reported to consume about 20% of all sheep meat sold in England. It's important to make Halal options clearly visible on physical and online menus as well as other marketing materials. We supply a wide range of halal-certified products including fresh and frozen lamb, poultry, beef, burgers, sausages and more, all are clearly labelled with the Halal logo. We can also provide physical certificates from suppliers on request.

JJ SPEAKS AT CITY HALL FOR THE 'HEALTHIER CATERING COMMITMENT FOR LONDON' EVENT

The event - supported by the Mayor of London - is a large-scale voluntary programme, promoted by local authorities, to encourage and assist food businesses and caterers to implement healthier options into their services.

JJ General Manager

Terry Larkin spoke about various topics including our weekly fruit and vegetable email promotions and smaller food packaging which allows takeaways to serve smaller healthier portions.

The talk was in front of an audience of restaurant owners, caterers and even dietitians.

One of the missions of the HCC is to help lower the problem of obesity in England and to encourage food outlets in London to make small changes that can make a big difference.

PAPERLESS TECHNOLOGY

JJ innovation strikes again, and this time we have brought further technology to our warehouses. Previously the warehouse would receive an order that was printed on paper, now with our paperless technology the warehouse staff will receive a notification on their mobile device instantly, which enables our staff to start picking straight away.

The new system has not only halved the time it takes from order to collection, but has also dramatically lowered paper waste allowing us to continue our mission to reduce our carbon footprint.

JJ RESTAURANT AWARDED 'HCC' BY ENFIELD COUNCIL

We are proud to announce that our headquarters staff restaurant has been certified by Enfield Council as a 'Healthier Catering Commitment for London' premises.

JJ had to fulfil various criteria such as, providing salad and fresh fruit daily, options for half portions of foods such as chips, use of rapeseed oil for fryers, offer low-fat spreads and post advertisements in-house to promote healthier eating.

JJ SOLAR PANELS A HIT WITH HIGH-PROFILE CATERERS

The solar panels on our Enfield, Sidcup and Dagenham branches have made waves in the trade press and were covered by leading hospitality magazine titles, The Caterer, Cost Sector Catering and Fish & Chips Fast Food, as well as leading retail magazine titles, The Grocer and Retail Express.

The news has also generated positive feedback from customers, such as

Faisal Haque, co-founder of Wrap It Up! who praised the project: "At Wrap It Up! we are committed to developing a sustainable environment and work with suppliers who share our long-term vision of reducing waste and protecting the planet.

"We are very pleased to hear that JJ Food Service has installed solar panels on the roofs of their branches as this demonstrates they share the same environmental values as us and take the protection of the planet very seriously.

We hope their lead in this area will provide some inspiration for the other wholesalers to follow suit too."
